

NIKE N7: EVERYBODY LEAVES A FOOTPRINT

Sport is Undefeatable

Few things have the power to bring people together like sport. Victory is contagious. Defeat unites. And the concept of team-all sharing the same goal – creates an unbreakable bond among teammates, a community, even an entire nation. Sport has the power to change lives. At Nike, we share this fundamental belief.

Introducing Nike N7

Nike N7 is our commitment to bring sport & physical activity with all its benefits to the Aboriginal communities in Canada. Through activity, competition and play we can unleash the potential of a generation. Youth can grow up active and healthy. Sport gives them self-confidence, enabling them to be a force for positive change in their community.

When one generation realizes its potential, future generations are much stronger for it.

SEVEN GENERATIONS

Nike N7 is inspired by Native wisdom of the Seven Generations: In every deliberation we must consider the impact of our decisions on the seventh generation.

N7 Program: Aboriginal Community

Nike connects Aboriginal communities to the Nike brand through nike.net. This allows Aboriginal health and recreation programs to purchase Nike products at special program prices as incentives in the spirit of health promotion and disease prevention. Nike developed the Air Native N7 shoe exclusively for Native communities in North America. Below are steps on how you can gain this access for your community.

- Complete and mail program application and terms and conditions documents to Nike N7 Project Lead.
- Application review to be completed by Nike. (7-10 business days)
- Once application is approved, account information will be emailed to key account contact.

The Nike N7 Collection

Every product in the Nike N7 Collection is designed with lower environmental impact – the result of Nike Considered Design. Exclusive, Native-inspired coloring highlights each N7 shoe and apparel piece. The Collection is offered at Nike Factory stores in Alberta and Ontario. Through these products Nike supports the N7 Fund.

N7 Fund

The N7 Fund was created in 2008 to provide access to grants to fund sports and physical fitness programs in Native communities. Check out our website at www.niken7.com.

NIKE N7: EVERYBODY LEAVES A FOOTPRINT

FAQ

What is the N7 Program?

The N7 Program offers access to special program priced Nike products through an online ordering tool. To qualify for the program, an application should be submitted. Contact N7 Project Lead to receive an application.

Who can qualify for the N7 Program?

First Nation, Inuit and Métis health promotion and disease prevention programs can apply to be part of the N7 Program. For example, health centres, diabetes programs and recreation departments can apply.

How do I gain access to the online catalog?

You will need to apply for the N7 Program to gain access through nike.net

What Nike products are available?

Once you have been approved for the program you will have access to four product catalogs. Footwear, apparel, equipment, as well as, the Nike Air Native N7 catalog.

What is the minimum order amount?

There is not a minimum order amount in effect.

Do I need to order frequently to keep my account active?

The N7 Program exists for communities and organizations to use for their health promotion and disease prevention programs. Our program is self—funding. The more communities that engage and order Nike product, the program will be sustained.

What does the payment process involve?

Once an order is completed within the online ordering system, nike.net, and shipped, an invoice will be generated. Invoices will be mailed to your location separately from your product order. You will have 30 days to pay in full.

Is there a fee to apply for the program?

No, there is no fee to sign up for the program.

What if product I ordered does not fit?

Returns can easily be made through our Retail Service department.
